"Q. Does the USGA® offer or recommend any handicap software?"

A. The USGA® does not offer or recommend handicap software to golf clubs."

USGA® Web Site

So WHY are you paying a Per Player Fee to a Handicap Service?

The Pro-ShopKeeper Handicap system allows either the golf professional or the players to enter their scores through a quick, intuitive touch screen interface. Rather than relying on a third party system, Clubs can now manage and report on handicaps themselves meeting all of the USGA® requirements.
